

ePackPro

for Bakers and Pastry Chefs

How to optimize the traceability of your sandwiches, salads, and other takeaway preparations?

- Photograph your product labels upon delivery
- Print labels for your preparations
- Check your best-by dates daily
- Customize your takeaway labels with important information for your customers

Top 3 features for Bakers and Pastry Chefs

1 Track your products in just 3 clicks

- Upon receiving your products, save time by simply scanning the labels. If some products are non-compliant, indicate it with a single click.
- When defrosting products, closely monitor their usage by creating labels that include their production date and secondary expiration date, in just a few seconds.
- Instantly know which products need to be used quickly thanks to a visual code, eliminating food waste.

2 Create your personalised labels

- Track all your preparations intended for sale and inform your customers about the ingredients, allergens, and expiration dates.
- Easily create new recipes and generate a label for each new dish intended for sale.
- Save valuable time by automating your labeling process, and even add your logo to your labels to create a strong brand image.

3 Integrate your own cleaning plan

- Your personalised cleaning plan is integrated into the solution, and you are notified as soon as a task needs to be performed.
- Easily assign cleaning tasks to each member of your bakery and monitor the progress and cleanliness of your lab.
- Get reports on the status of your lab and check daily if you are compliant. Our system notifies you in case of missed tasks, allowing you to stay calm and focused on your passion.

ePackPro changed his everyday life

“To qualify ePackPro in one word, I'd say efficiency. It saves time for our teams in taking temperatures and tracking products thanks to the printer that allows us to date all our products. All tedious tasks are made easier and more enjoyable. It is a tool that the new generations perfectly master.”

Gaëtan Le Bellis - Owner, Le Bellis Bakery
